Day C

Monday, October 12, 2026 — same weights as 10/4, third session for four exercises

No weight goes up today, with one small exception. Single-Leg RDL, Renegade Row, Bird Dog, and Dead Bug are on session three of three at the top of their range; a clean session today makes them ready to progress at the next Day C. Bulgarian Split Squat and Incline Press have room for a rep or two more if they feel easy. The Goblet Carry matches the 15 lb you used on Thursday.

Watch today: Band Pull-Apart, Biceps Curl, and Lying Triceps Extension. Thursday left a very mild irritation in the upper arm and the exercise was not clear, so note which of these, if any, brings it on. Stop that exercise if it does.

10/4: 10 × 3 at 8 lb each hand	Lying Dumbbell Triceps Extension *(watch)*	3 × 10	8 lb each hand	30–60 sec	

Notes: Warm-up is 15 minutes, flat walk or the hill. Where a range is shown (10–12), last time's number is fine; add reps only if every set feels easy. The Single-Leg Glute Bridge stays on hold; the two-leg version has been clean twice. Take 1–2 minutes between exercises, and stand or walk around between sets. Stop rule: any sharp, burning, tingling, or spreading pain is a stop, and mild irritation in a watch exercise is a stop for that exercise only.
