Day B

Thursday, October 22, 2026 — first Day B with the new exercises, in pairs

Four new exercises today: Suitcase Deadlift, Side Lunge, Two-Arm Bent-Over Row, and Band External Rotation. Starting weights are a guess: if a set feels easy, note it and the weight goes up next time. Hammer Curl moves up to 12.5 lb, as on Day A.

Watch today: Band External Rotation and Face Pull (left shoulder) and Side Lunge (left hip). Stop that exercise if irritation shows up, even mildly, and write down which one and where.

Notes: Drink a full glass of water before the warm-up. Warm-up is 15 minutes. Target: 45–50 minutes of strength work, not counting the warm-up. Start _____ Finish _____. Stop rule: any sharp, burning, tingling, or spreading pain is a stop, and mild irritation in a watch exercise is a stop for that exercise only.
