

Today: 2026-08-13

Last Day B: 2026-08-06

DAY B

Full-Body Strength — Session Card

1. Dumbbell Sumo Deadlift

3 × 8–12

LAST TIME

- 1 25 lb × 15
- 2 25 lb × 15
- 3 25 lb × 15

TODAY

- 1 _____ lb × _____
- 2 _____ lb × _____
- 3 _____ lb × _____

Extending well: hit the 15-rep target across all 3 sets at 25 lb, your equipment ceiling. Push toward 18–20 reps today. Once you're consistently past 20, the next lever is tempo (a slower 3–4 sec lowering) rather than more reps or weight.

2. Dumbbell Reverse Lunge

3 × 8–10 / side

LAST TIME

- 1 20 lb × 8
- 2 20 lb × 8
- 3 20 lb × 8

TODAY

- 1 _____ lb × _____
- 2 _____ lb × _____
- 3 _____ lb × _____

Bottom of the new range: 8 reps × 3 at 20 lb, right after the jump from 15 lb — normal to land at the bottom after a weight increase. Work up toward 10 reps at 20 lb today before considering the next jump.

3. Dumbbell Overhead Press

3 × 8–12

LAST TIME

- 1 10 lb × 12
- 2 10 lb × 12
- 3 10 lb × 12

TODAY

- 1 _____ lb × _____
- 2 _____ lb × _____
- 3 _____ lb × _____

Third session at 12/12/12, capped at 10 lb: per your standing note, hold the weight. Since reps have sat at the top of range twice running with no weight lever available, push past 12 today (14–15) rather than repeating the same numbers — extending the rep ceiling is the only progression path left here.

4. Band Bent-Over Row

3 × 10–15

LAST TIME

- 1 Black band × 15
- 2 Black band × 15
- 3 Black band × 15

TODAY

- 1 band _____ reps _____
- 2 band _____ reps _____
- 3 band _____ reps _____

Top of range again on black: 15 × 3, same as last time on the band you just moved up to. Move up one more band level and drop back to ~10 reps.

5. Stability Ball Hip Bridge/Hamstring Curl

2 × 10–12

LAST TIME

1 × 10
2 × 10

TODAY

1 reps _____
2 reps _____

First clean bottom-of-range hit: 10/10 across both sets, resolving the fatigue-dropoff pattern for good. Aim for 12 reps today — once that's consistent, this is ready for added resistance (a light dumbbell across the hips).

6. Side Plank

2 × 20–30 sec / side

LAST TIME

1 45 sec + 5 lb
2 45 sec + 5 lb
3 45 sec + 5 lb

TODAY

1 sec, lb held _____
2 sec, lb held _____

Already well past target with added weight: 45 sec × 3 sets with 5 lb held, double the plan's default (2 sets, 20–30 sec, bodyweight). Hold 45 sec today but bump to 8 lb, or push duration to 55–60 sec at the same 5 lb, pick one lever at a time rather than both.

7. Single-Arm Suitcase Carry

3 × 40–60 ft / side

LAST TIME

1 25 lb × 60 ft
2 25 lb × 60 ft
3 25 lb × 60 ft

TODAY

1 _____ lb × _____ ft
2 _____ lb × _____ ft
3 _____ lb × _____ ft

Full 3 sets at both ceilings: 60 ft × 25 lb across all 3 sets — top of the plan's stated distance range and your dumbbell max. Push distance beyond 60 ft today (70–80 ft), since weight can't go higher.

8. Band Face Pull

3 × 12–15

LAST TIME

1 Black band × 15
2 Black band × 15
3 Black band × 15

TODAY

1 band _____ reps _____
2 band _____ reps _____
3 band _____ reps _____

Top of range again on black: 15 × 3, same as last time — same call as Band Bent-Over Row above. Move up one more band level and drop back to ~12 reps.

9. Dumbbell Lateral Raise

3 × 12–15

LAST TIME
Not yet logged

TODAY
1 _____ lb × _____
2 _____ lb × _____
3 _____ lb × _____

Still no data after 2 sessions on the plan: added 2026-07-30, recommended again on the 8/6 card, but no sets have been logged for it either time — flagging rather than assuming it's being done. If it's being skipped on purpose, worth knowing; if not, start light (5 lb) and aim for 12–15 reps across all 3 sets, same as originally planned.
