Day B

Friday, October 16, 2026 — new weekly program starts this week

Same weights as 10/8, shorter session. Hammer Curl and Triceps Kickback drop to 2 sets, and the Reverse Crunch is new at the end for the lower abs. Aim to finish in about 60 minutes. Sumo Deadlift has room for a rep or two more if it feels easy; Reverse Lunge is on session two of three at the top of its range.

Watch today: Bent-Over Row, Face Pull, and Lateral Raise (one of them caused mild upper arm irritation last Thursday; note which, if any, does it again), and Reverse Crunch (left hip). Stop that exercise if irritation shows up, even mildly, and write down which one and where.

10/8: 55 sec/side × 3, no weight	Side Plank	3 × 55 sec/side	bodyweight	30 sec (after both sides)

10/8: 12 × 3 at 8 lb	Dumbbell Lateral Raise *(watch)*	3 × 12	8 lb	30–60 sec	
10/8: 10 × 3 at 10 lb	Hammer Curl	**2** × 10	10 lb	30–60 sec	
10/8: 10/side × 3 at 8 lb	Dumbbell Triceps Kickback	**2** × 10/side	8 lb	30–60 sec (after both sides)	
New	Reverse Crunch *(new, hip watch)* On your back, knees bent at 90 degrees, hands at your sides. Curl your hips a few inches off the floor using your abs, then lower over 3 seconds. Small and slow, no swinging. If the left hip complains, switch to Heel Taps: same position, lower back pressed down, tap one heel to the floor at a time.	2 × 10–12	bodyweight	30 sec	

Notes: Drink a full glass of water before the warm-up. Warm-up is 15 minutes, flat walk or the hill. Take 1–2 minutes between exercises, and stand or walk around between sets. If the session is running well past 60 minutes, that is the cue to trim, not to push through. Stop rule: any sharp, burning, tingling, or spreading pain is a stop, and mild irritation in a watch exercise is a stop for that exercise only.
